

— THIS IS WHAT —  
**LOCAL GOOD**  
— LOOKS LIKE —

---

"The nutrition aspect is huge in the Summer Success program. Often times the kids might not have even had breakfast so when they show up they're extra hungry. It's super important to our kids and also our families." -  
Summer Success Teacher

1 in 5 children in SK experience food insecurity meaning families struggle to provide adequate food either a few days a month, or chronic food insecurity where food is a constant state of crisis. Child hunger is a significant barrier to learning. To put kids on the right path for success, we aim to reduce the number of stressful events like going to school hungry and provide better support to families.
